

PATHOLOGY CHARGES

Scottsdale McCormick Ranch Surgicenter has arranged for discounted pricing for routine lab screening sent to LabCorp at the request of your surgeon. These fees are customarily collected one week prior to surgery date, however we wanted to apprise you that additional fees may be incurred due to the following reasons:

- If during your procedure, your surgeon deems it necessary to collect additional specimens and/or cultures
 1. Charges less than \$250 - Scottsdale McCormick Ranch Surgicenter will charge the discounted pricing to your credit card on file and a receipt will be emailed to you.
 2. Charges greater than \$250 - Scottsdale McCormick Ranch Surgicenter will contact you to arrange payment via the credit card on file or another payment form of your choosing.
- In the event the pathologist at LabCorp determines further pathologic evaluation is required, they are bound by law to proceed with additional testing, and are not required to contact your surgeon or you, the patient, in advance of doing so. This will result in additional billable services from LabCorp direct. You will be contacted by LabCorp regarding these additional charges, at which time you may want to provide information regarding your insurance company coverage to LabCorp.

Should further testing be required for the above stated reasons, please feel free to contact your surgeon directly to inquire about specific details.

Thank you for choosing Scottsdale McCormick Ranch Surgicenter for your surgical needs!
